APC 1, APC 3, APC 4, APC 6 LIVING SETTINGS

APC 3 APC 6

APC 1

APC1 is a two-handed invisible screw fixing cabinet hanger.

APC1 requires a simple installation, without any pre-drilling operations. It can be installed on cabinets with a minimum sanitary gap of 15 mm. APC1 allows a vertical adjustment up to 18 mm and an in-depth adjustment of maximum 31 mm. The adjustments can be carried out from the inside of the cabinet by using a standard PZ2 screwdriver.

Also featured in the APC family are 1 type of wall plate and 2 types of wall bars made of very thick zinc-coated steel and hardened by punched impressions. Wall bars and wall plates feature oval holes which facilitate the correct positioning and give possibility to carry out the horizontal adjustment. Also available 2 different cover caps: one round version for Ø20 mm hole and one square version for double Ø12 mm holes.

FEATURES AND BENEFITS

EN 15939:2019 - 70 Kg per piece

WIDE ADJUSTMENT RANGE: vertical and in-depth adjustments. NO PRE-DRILLINGS: no pre-drilling operations are required for the cabinet installation. ONE COVER CAP: only one hole is needed to provide access to all adjustments.

Certificates available on request.

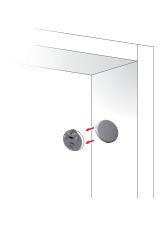

INSTALLATION UNDER THE CABINET TOP

INSTALLATION ON THE WALL

COVER CAP INSERTING

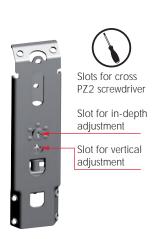

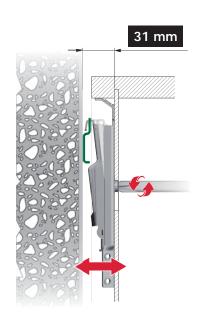

It is the responsibility of the customer:

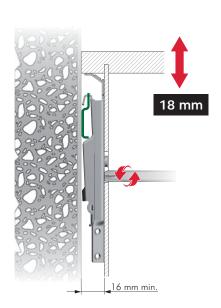

- to ensure that the wall is of a suitable quality to hold the unit fixing in place.
- to use the proper hardware fittings according to the construction of the wall.

For more specific information, please refer to the WARNINGS section at the end of the catalogue.

ADJUSTMENTS

16 min.
